2. KEY DEFINITIONS AND EXPLANATIONS/ NGAAHI FAKA'UHINGA LEA

(a) Similar Role - Refers to an equivalent position or role within one or another Ministry. A position that can be considered as a logical step in the career path (within two bands down), or a position within a division of a Ministry that is one band different from the equivalent position in another Ministry.

Similar experience within the same division under the same Ministry, or similar or identical experience in different Ministries within Government, may also be considered.

Where a Ministry does not have every salary band represented in its organisational structure, the missing band(s) will still be counted when determining the two-band range. For example, where a Ministry has Band L followed by Band J, the absence of Band K does not mean that Band I is within two bands of Band L. Band I remains three bands below Band L under the Government-wide salary structure.

Similar experience within the same division or comparable experience across Ministries may also be considered where the level, duties, responsibilities, and nature of the work are substantially similar.

For example:

- An Accountant (Band L) can apply for a Senior Accountant (Band K) position within the same Ministry or another Ministry.
- A Clerk can apply for a Finance Officer role if the skill sets are closely related and the clerk role involves similar financial duties.
- An Assistant Secretary (Band L) applying for a Senior Assistant Secretary (Band K/J), or a Senior Assistant Secretary applying for a Principal Assistant Secretary (Band I), where the tasks are closely related or similar.
- A Revenue Officer Graduate (Band L) can apply for a Senior Assistant Secretary position where the responsibilities are closely related, e.g. a Revenue Officer Graduate under
